Nobilis is perhaps the most playable course on this coastline and this makes it very very popular. NOBILIS disposes with his 18 holes, a Driving range, a golf Clubhouse with a shop, covering and lockable cupboards for the golf bags of the usual infrastructure of internationally known golf arrangements and was opened in 1998. Wide fairways made of Bermuda Hybrid Grass and large inclining greens made of dark-green Bent Grass create a perfect setting for a challenging round of golf for players of any level.
